4. Szent István University authorized GAK Nonprofit Kft. in Gödöllő Dormitories and Belvárosi Kollégiumok Kft. in Buda Dormitories to test the body temperature of any person who is entitled to use a dormitory room. Body temperature testing inspection is carried out by the receptionists of the dormitories.

5. Any person who is entitled to use a dormitory room shall submit to the body temperature testing carried out by the receptionists of the dormitories. The body temperature test is done without physical contact with a forehead thermometer every time the person enters any dormitory building.

6. In case that the body temperature of the person being inspected is 38 ° C or more, the inspected person shall

- give his/her name and room number to the inspector,
- move into a free patient room described in Section 2 with his/her most necessary personal items that are enough for 14 days not later than one hour after the testing. It is useful if the package is appropriate in hospitalization².
- proceed as described in Section 8 for further consultation.

7. In case an event described in Section 6 occurs, the inspector shall call the Director in Gödöllő Dormitories and the Dormitory Coordinator in Buda Dormitories on the phone.

8. The person who has been isolated as described in Section 6 must consult about his/her health condition by calling the numbers below:

- In Gödöllő Dormitories
8.00 AM-5.59 PM, call: 112
6.00 PM-7.59 AM, call Tormay Károly Health Centre's call center: 28 430 655 or 28 430 452
- In Buda Dormitories
Call Újbuda 0-24 medical call centre: 0036 1 203 3615

If you need assistance in consulting the doctor / medical call centres, it should be reported to the staff of the International Relations Centre, who can be contacted in the usual way.

If you fail to contact them otherwise, sign in this Messenger group:

9. After the medical consultation described in Section 8, two possible cases can follow:
- a) the doctor recommends you continue the voluntary quarantine.
In this case, you must stay in the designated room to protect your life and the health of the community.
 - b) the doctor calls an ambulance in accordance with the official medical protocol.
In this case, you must wait for the ambulance with your prepared hospital package and report this fact to your dormitory coordinator.

² hospital package: sleepwear, robe, slippers, towels, toiletries, glasses, cutlery, leisure clothes, toilet paper, paper handkerchiefs, telephone charger, possibly books, tablet, etc.

10. A volunteer group, led by Rajab Ghabour, has been organized to provide care for the isolated students, which can be accessed at the following link:

<https://www.facebook.com/groups/1680505468842111/>

The volunteer group helps isolated students organize their food supply, which everyone must continue to arrange individually. The rooms for isolation have a kitchenette, a bathroom and a fridge.

11. Compliance with the provisions of this document is mandatory for all persons entitled to use dormitory room on any ground in Szent István University Dormitories.

Student Disciplinary Regulations shall not apply provisionally in case of violation of rules since the measures shall be given priority and it is currently not possible to convene a board in order to reduce the number of personal contacts.

The person violating the provisions of this document shall

- a) receive a warning for the first time,
- b) be expelled from the dormitory for the second time, and as a result, it will be reported to the National Directorate-General for Aliens Policing that his / her place of residence in Hungary has ceased.
